DATE: March 03, 2017
DISTRIBUTION: All DNV GL - Healthcare Customers, Employees and Sub-contractors
APPROVED BY: Patrick Horine

NIAHO® CAH, Revision 16 reflects:

- Incorporation of the changes in the Physical Environment (PE) Chapter as a result of CMS changes applicable November 1, 2016
- The American Society of Anesthesiologists (ASA) position on the definition of “immediately available” when medically directing
- Revision of the Interpretive guidelines for SS.5 regarding malignant hyperthermia
- Minor edits for consistency and clarity

When DNV GL receives final CMS approval of NIAHO® CAH, Revision 17, addressing topics such as antimicrobial stewardship and sterile compounding, we will provide communicate the release in a separate Advisory Notice.

CAH’s participating in the Medicare and Medicaid program are expected to comply with current Conditions of Participation. When new or revised requirements are published hospitals are expected to demonstrate compliance in a time frame consistent with the effective date published by CMS in the Federal Register.

Please note that DNV GL has instituted a new naming system for revisions. The revision numbers are no longer sequential but are aligned with the year of publication. This Revision 16 indicates that the revision was approved in 2016. Should there be a subsequent revision in the same year the revision would be indicated by, for example, 16.1.

Download the revised Standard: NIAHO® Accreditation Requirements, Interpretive Guidelines and Surveyor Guidance for Critical Access Hospitals, Revision 16.0
