SUBJECT: Comprehensive Stroke Program Certification Requirements Version 18-0

DISTRIBUTION: All DNV GL Healthcare Current Customers and DNV GL Employees

APPROVED BY: Cathie Abrahamsen RN, MSN, Director, Stroke Certification Programs

DNV GL is providing notice to DNV GL Healthcare Accredited Organizations of an updated version of the Comprehensive Stroke Certification Requirements.

The CSC Program Certification has been in existence since 2012 and this is the third edition of that program. You will find some new sections in this edition such as Anesthesia requirements, a new stroke education grid and a new addendum that is a crosswalk of the metric requirements and Get With The Guidelines, designed to make the metric collection to be more in line with that system. There is information in the addendum on the new requirements of the added metrics.

Please note that, DNV GL has instituted a new naming system for revisions. The revision numbers are no longer sequential but are aligned with the year of publication. This Version 18 indicates that the version was published in 2018. Should there be a subsequent revision in the same year the revision will be indicated by, for example, 18-1.
